Mechanical engineering graduate — design and analysis

Summary

Mechanical engineering graduate who designs machine components with CAD and checks them with hand calculations and test data.

Education

B.S. Mechanical Engineering, Ridgeway Institute of Technology, 2021 – 2025

Experience

Engineering Intern, Delta Motion Systems, May 2024 – August 2024

- Designed a gearbox mounting bracket in SolidWorks and cut its mass by 18%
- Wrote a technical report on a shaft fatigue failure and recommended a larger fillet

Projects

Formula SAE suspension — machine design, stress calculations and CAD drawings

Skills

CAD, SolidWorks, Mechanics, Machine design, MATLAB, Technical report, Failure analysis
